

Mawsley WI

Wed 11th December 2019

At TCAM from 7.30pm

Ding!

Handbell ringing

Dong!

According to Wikipedia, the first tuned handbells were developed by brothers Robert and William Cor in Aldbourne, Wiltshire, England, between 1696 and 1724.

Originally, tuned sets of handbells were used by change ringers to rehearse outside their towers. However, it is more pleasant for ringers to learn and practise in the warmth of the local pub rather than in a cold tower in winter. So, we have invited hand bell ringers to come along to our meeting at TCAM and show us how it is done.

Sounds Christmassy? So, what are you waiting for? Come along and join in the fun!

Visitors welcome £4.50pp
